

contact.us@thenovourq.com

Global development and guaranteed rent property management company.

# What we do

specialising in guaranteed rent and professional property management services. We manage properties across London and the surrounding counties on behalf of private landlords, companies, overseas investors, and local authorities.

We provide a complete 360-degree property management service, covering every stage of the rental cycle, from maintenance, refurbishments, and development to marketing, tenant placement, and ongoing tenancy management.

Our proactive and hands-on approach ensures properties are managed efficiently while providing landlords with a reliable, professional, and completely hassle-free service.

# With our Guaranteed Rent option, you avoid tenant disputes and legal headaches while collecting steady, secure income every month.

### Guaranteed Rent

- 1–3 months paid in advance
- Fixed terms from 1–10 years
- Backed by local authority agreements
- Zero void periods
- Minor repairs included

### Property Management

- Transparent, fixed fees
- Quarterly property inspections
- Round-the-clock home rescue cover

# Technology that removes human error

Every NOVOURQ property is run from one AI-assisted platform, so nothing depends on someone remembering to chase it, check it or file it.

Illustrative screen with sample data, not a live account.

1. **AI prepares, people approve**
   Suggested actions wait in an approvals queue for a manager to check before they go out. The AI answers only from your records and never makes payments.

2. **Rent chased automatically**
   Overdue rent is flagged straight away and reminder emails go out automatically, so no payment slips through unnoticed.

3. **Bills and certificates tracked**
   Utility bills are read from email into the right property, and a bill that jumps by 30% or more is marked high. Safety certificates warn 30 days before they expire.

4. **Everything on the record**
   Documents, signatures, repairs and messages are filed against the property as they happen, with a full activity log behind every change.

# An owners portal that gives you peace of mind

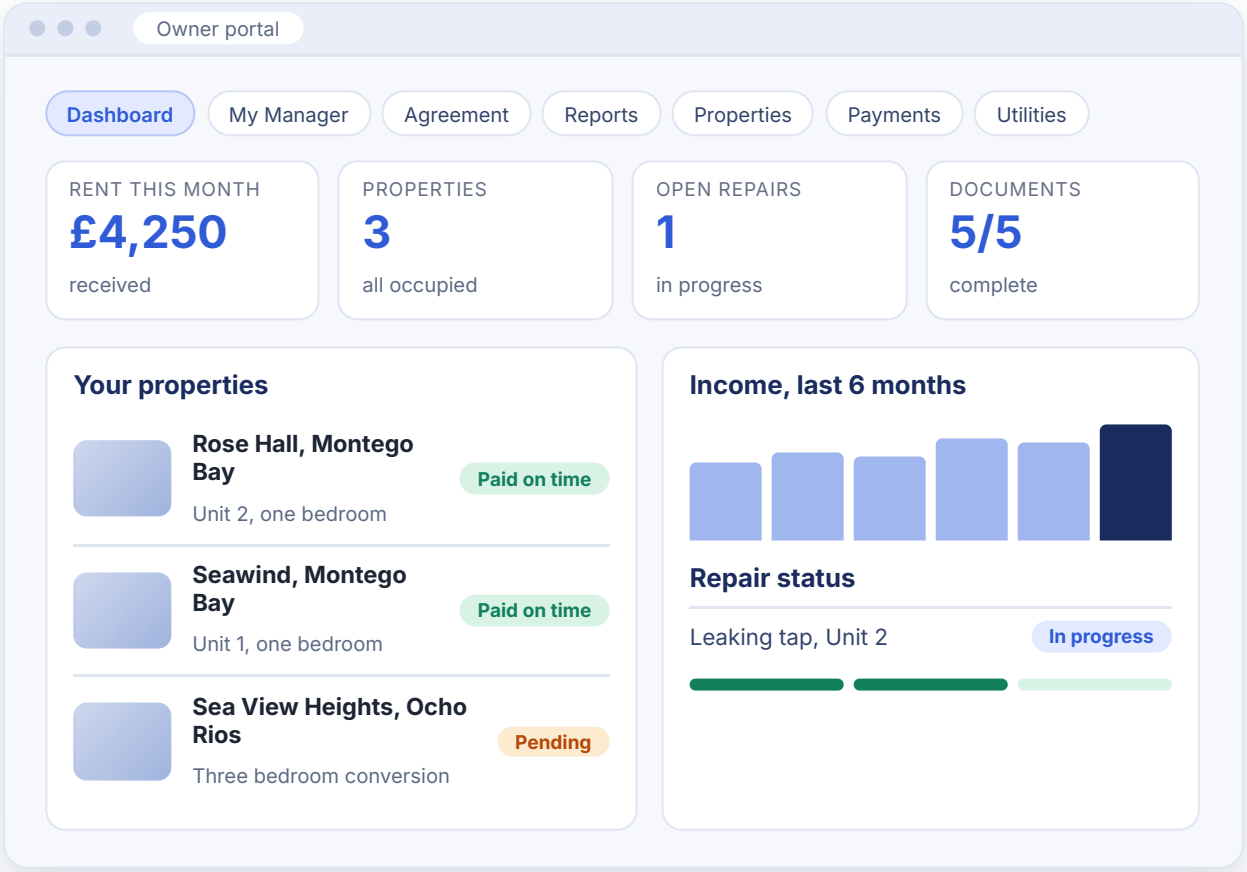

Landlords see what we see, whenever they want, on their own private login. No chasing for updates, and every figure is professional and on the record.

1. **Your rent, always visible**
   See each payment as Paid On Time, Paid Late, Pending or Overdue, with reports and statements to hand.

2. **A named manager**
   Your manager's name, phone and email sit on one tab, and you can message the team from the portal at any time.

3. **Repairs from reported to solved**
   Follow every maintenance job with photos and notes, so you know what was done and when.

4. **Agreement, documents and utilities**
   Your signed agreement, certificates and utility bills are stored together and open to you whenever you need them.

Illustrative screen with sample data, not a live account.
