NOVOURQ CLOUD AI

# Real estate, run by AI. Approved by you.

One platform for landlords, Airbnb hosts, estate agencies and developers. Available now.

Start today at app.thenovourq.com/login?signup=1

ONE PLATFORM

# Built for the way property businesses actually work

Novourq Cloud AI drafts the messages, reports and checks. Your team approves what goes out. Pick your area and see what it does for you.

## Landlords

Rent chasing, repairs, compliance and monthly owner reports, with tenants and owners on their own portals.

## Airbnb hosts

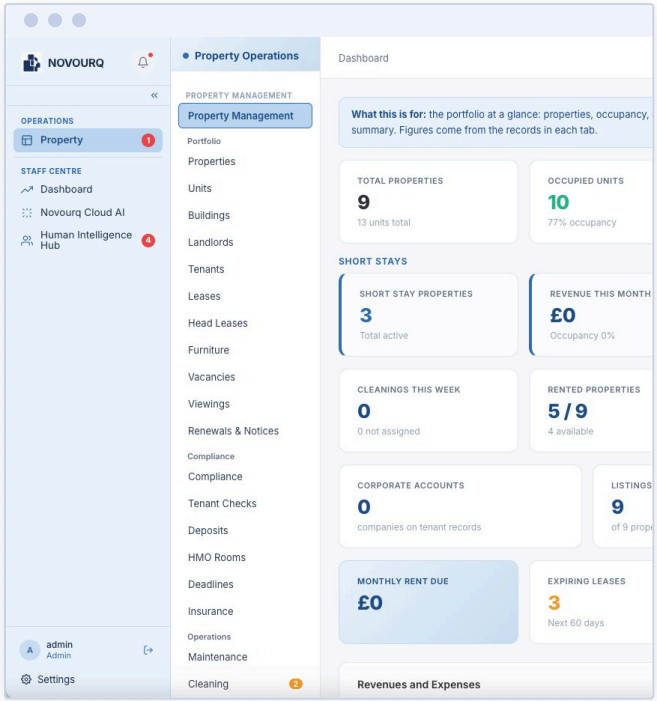

Guest replies, cleaning instructions, nightly rate reviews and bookings in one place.

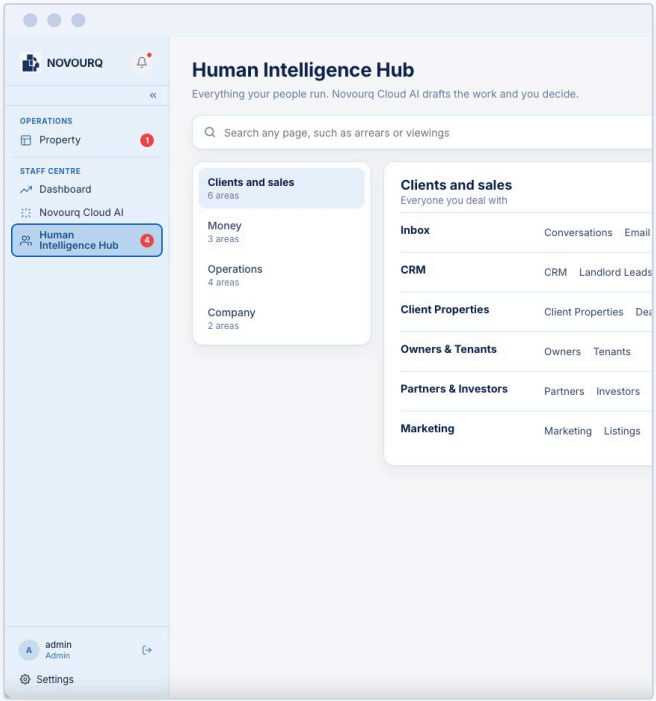

## Estate agencies

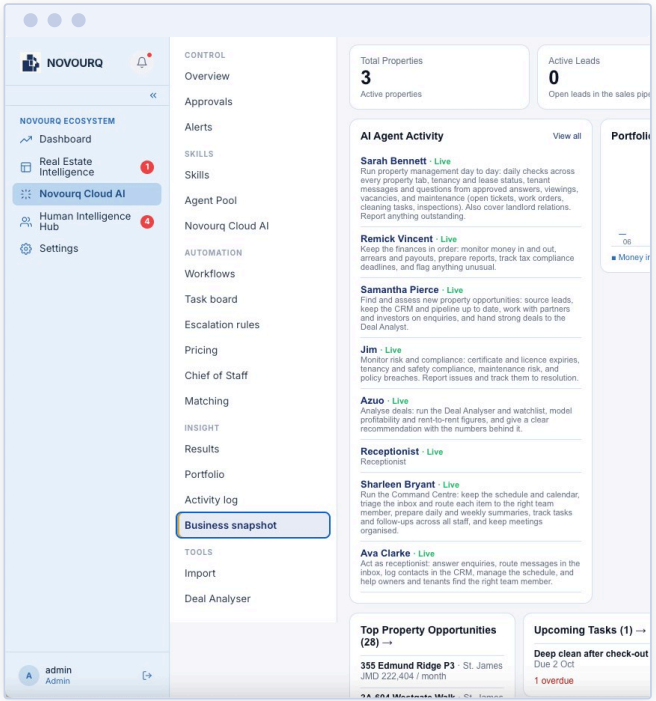

Website chat, property matching, viewing reminders, listing descriptions and a lead pipeline.

## Developers

Deal analysis and screening, investor updates, floor plans and a 3D walk-through of your project.

THE DASHBOARD

# Your whole business at a glance

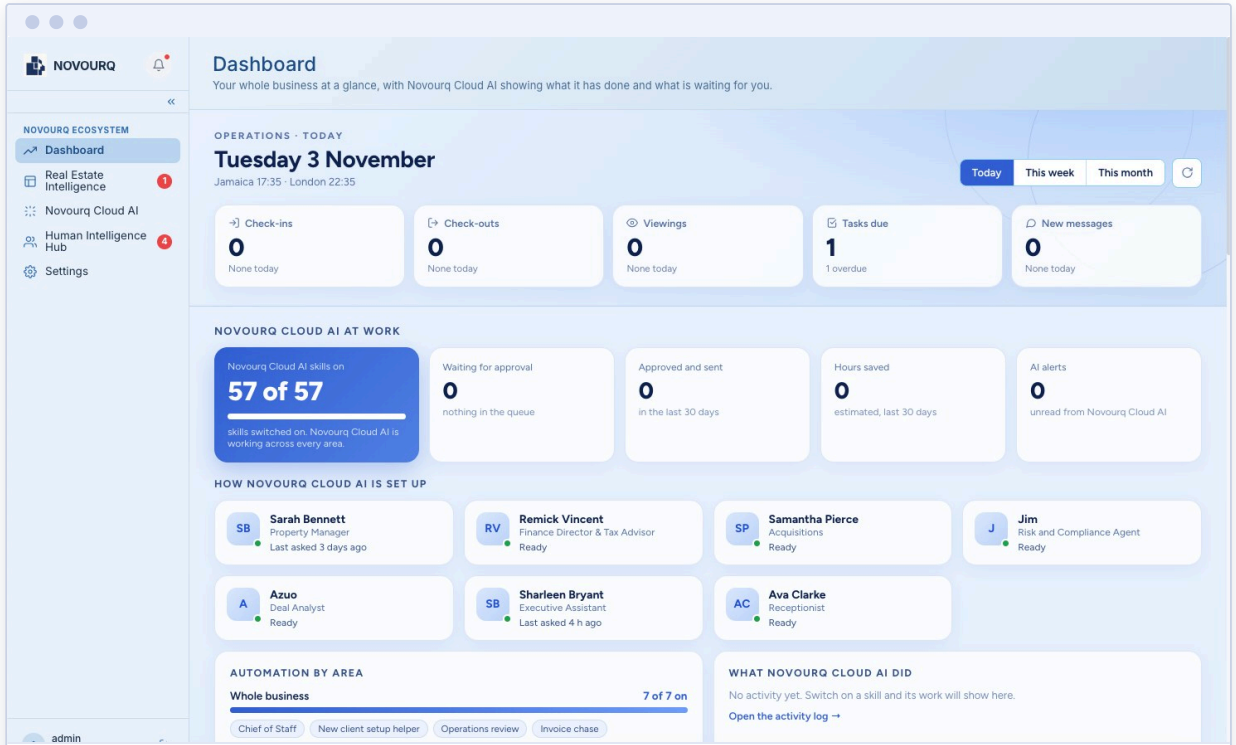

Open the portal and see what is happening today and what Novourq Cloud AI has done and is waiting on you for.

**Today**
Check-ins, check-outs, viewings, tasks due and new messages.

**Cloud AI at work**
Skills switched on, items waiting for approval, hours saved and alerts.

**Your AI team**
Named assistants for property, finance, acquisitions, compliance and reception.

**Automation by area**
See which parts of the business are automated and which are not.

The NOVOURQ dashboard

FOR LANDLORDS

# Your lettings, run by AI. Approved by you.

Rent, repairs, compliance and owner reports in one place, with nothing sent until you say so.

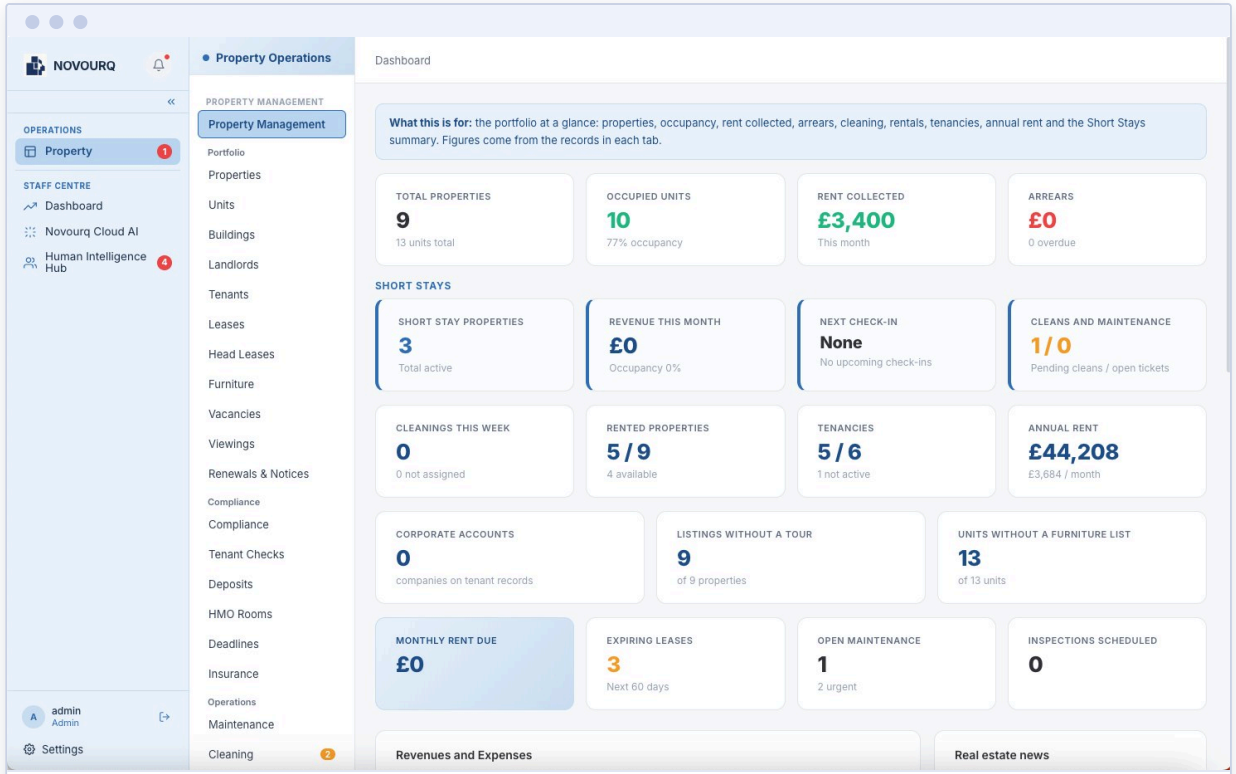

**Rent chasing**
Reminders before rent is due and firmer messages when it is late.

**Monthly owner reports**
A clear report per property, drafted every month.

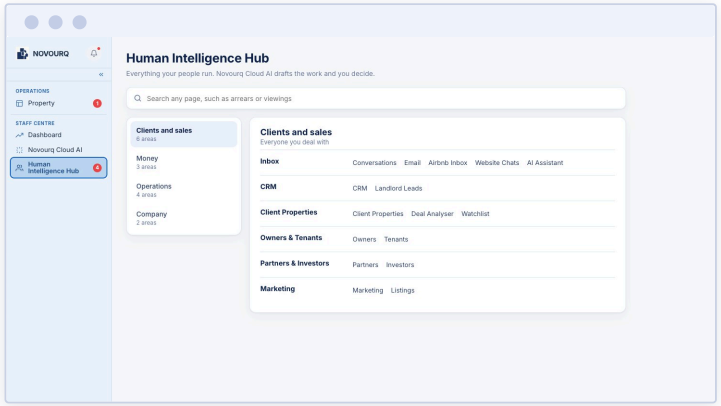

**Repairs and contractors**
Maintenance requests drafted for the right contractor.

**Compliance**
Certificates and insurance renewals flagged before they expire.

**Tenancy renewals**
Leases ending soon spotted, with a renewal message drafted.

Property Management: occupancy, rent collected, arrears and leases

FOR AIRBNB HOSTS AND CO-HOSTS

# Short stays, handled by AI. Controlled by you.

Guest messages answered, cleans arranged and prices reviewed while you do something else.

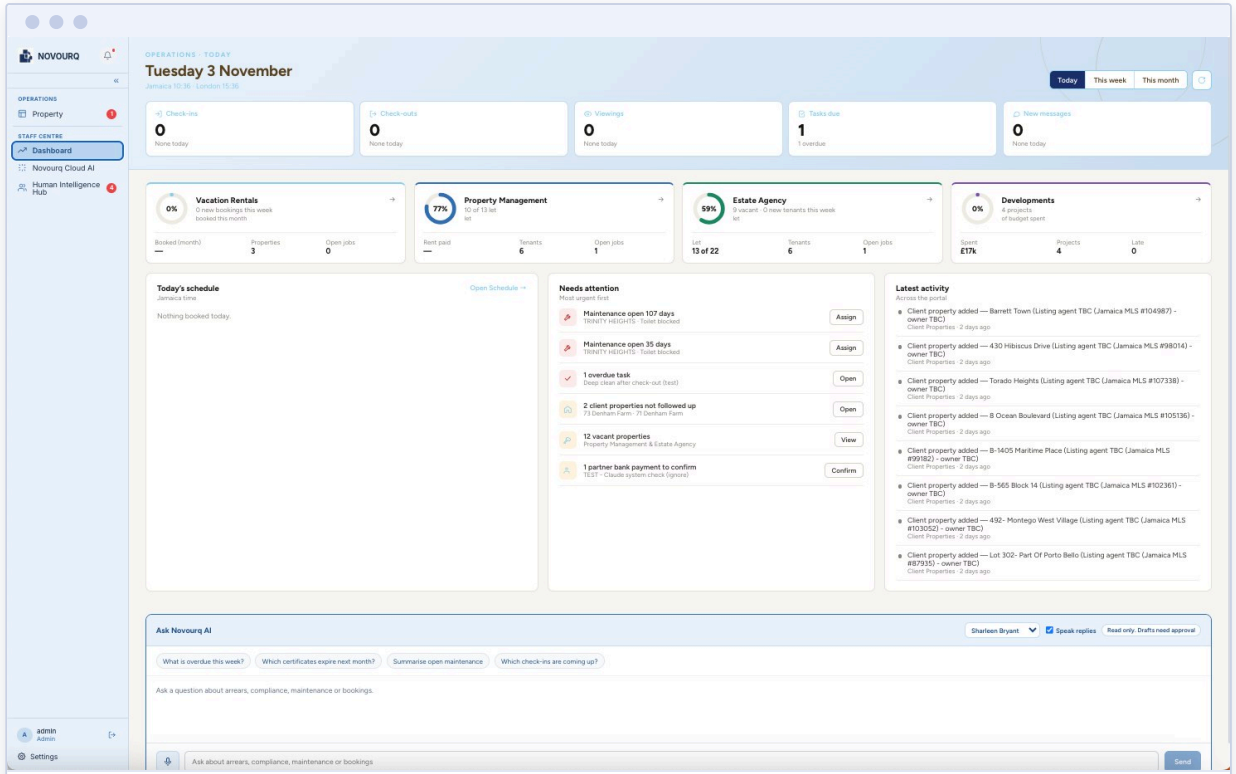

**Guest replies**
Written from your property knowledge, ready to approve.

**Cleaning instructions**
Drafted for your cleaner around every check-out.

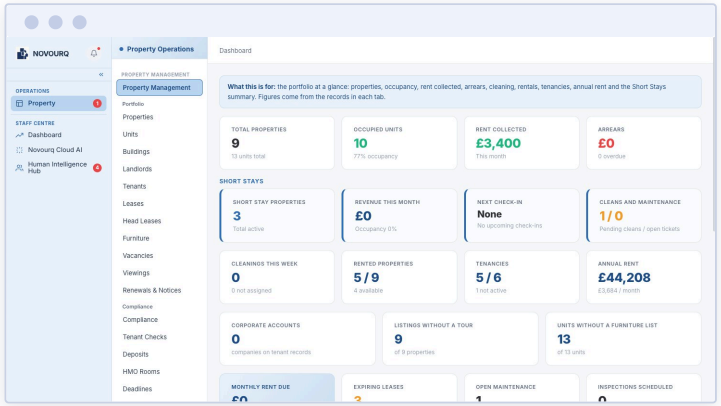

**Nightly rate reviews**
Rates reviewed every week, with changes proposed.

**Review replies**
Responses to guest reviews drafted in your voice.

**Owner reports**
Co-hosting for owners? A monthly report for each one.

Short stays, bookings and cleaning in one view

FOR ESTATE AGENCIES

# Enquiries answered. Viewings booked. Listings written.

An AI team member for your agency that works every lead, with your staff approving what goes out.

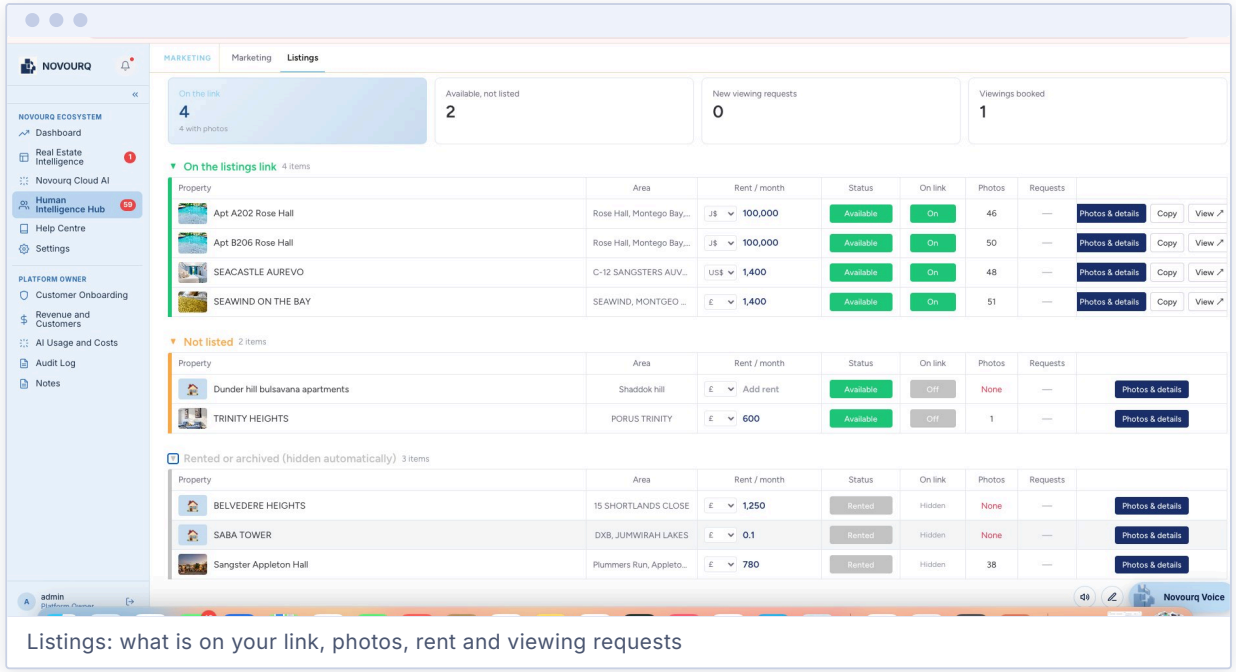

**Website chat**
Answers visitors, saves them as leads and books viewings.

**Property matching**
Reads what an enquirer wants and drafts a reply naming your best matches.

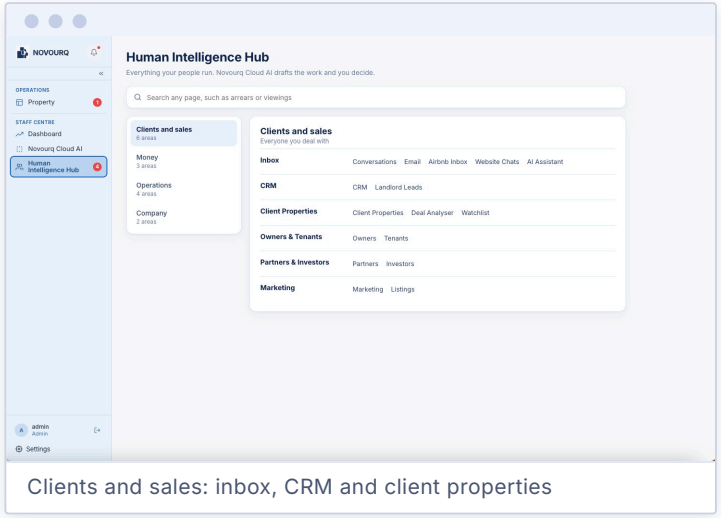

**Viewing reminders**
A reminder the day before and a follow-up after every viewing.

**Listing descriptions**
First drafts for listings that have none.

**Listings page**
Control which properties go on your listings link, with photos and rent.

Listings: what is on your link, photos, rent and viewing requests

Clients and sales: inbox, CRM and client properties

FOR PROPERTY DEVELOPERS

# Screen deals faster. Keep investors informed.

AI-assisted deal analysis and investor reporting, with a person making every decision.

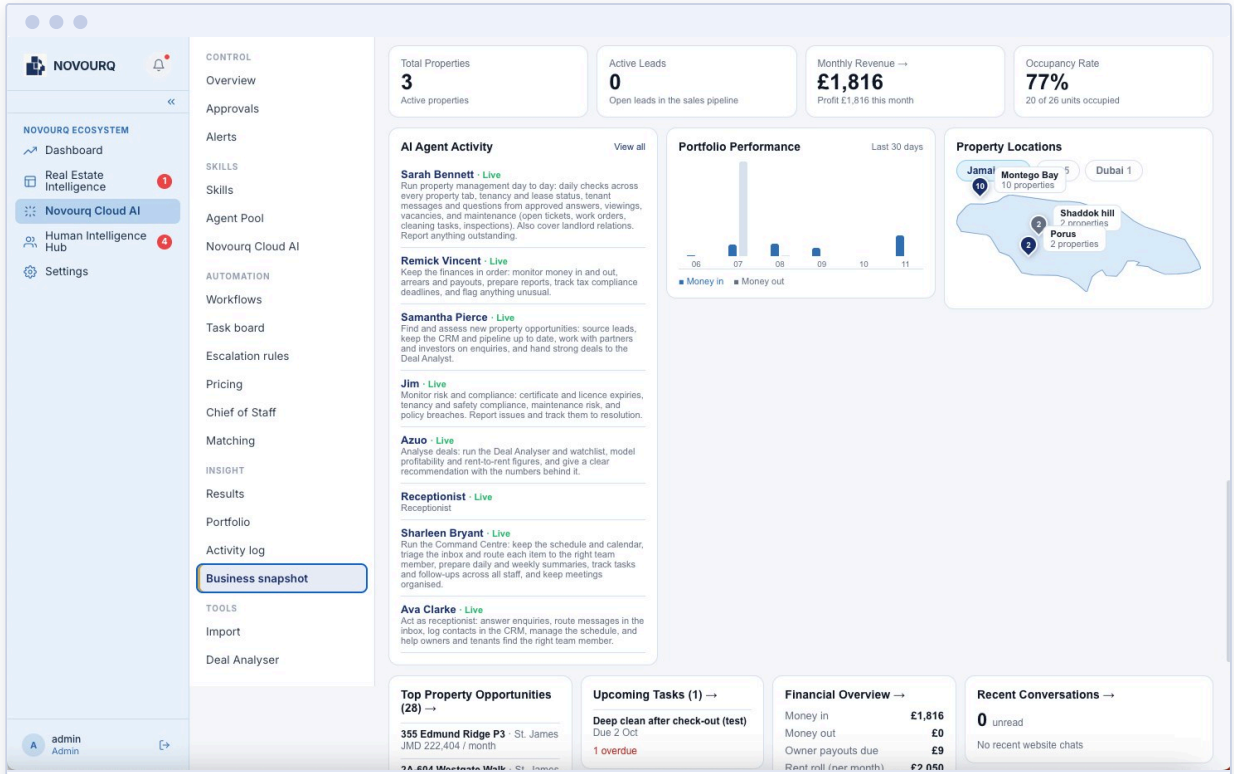

**Deal Analyser**
Run the numbers and get a go, review or no-go.

**Deal finder and watchlist**
Describe what you want, follow what changes.

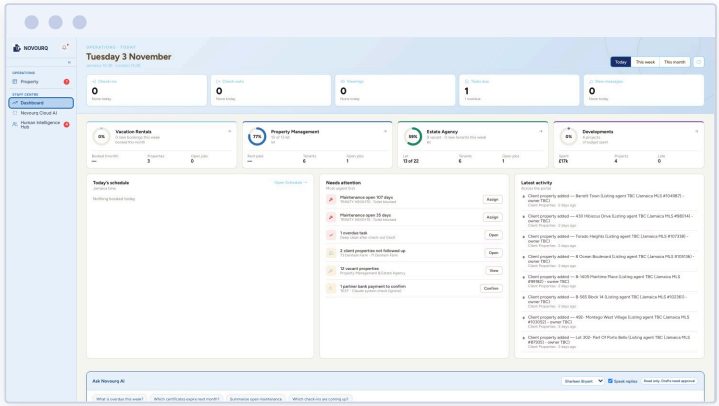

**Investor updates**
A progress update drafted for each investor monthly.

**Business snapshot**
Portfolio, finances, tasks and AI activity together.

**Floor plans and 3D tour**
Showcase a project before it is built. See the next page.

Business snapshot: portfolio, AI agent activity and finances

MAP, FLOORS AND 3D WALK-THROUGH

# Show a project before it is built

Every property and development sits on one street map. Open a building, see every flat by floor, then walk it in 3D.

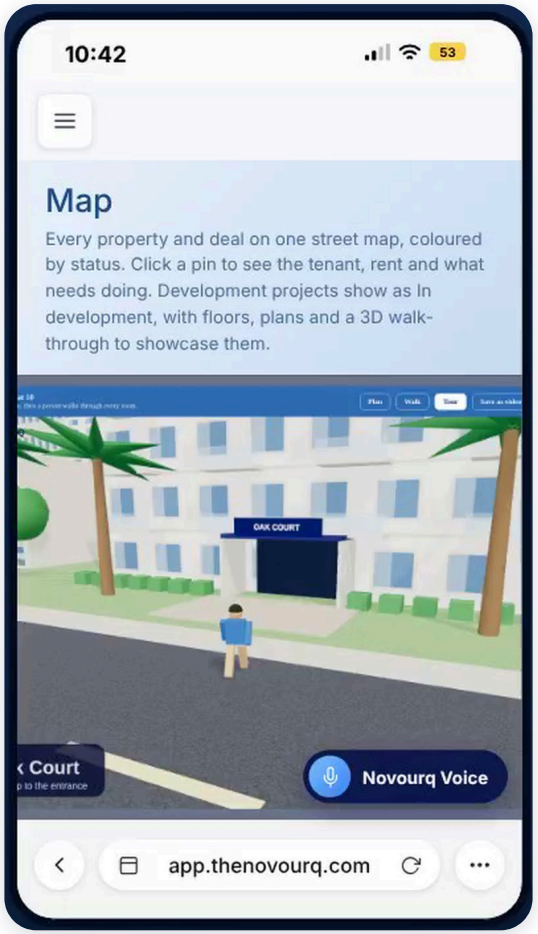

**From pin to walk-through**
Pin on the map, to its floors, to a 3D walk of the flat.

**Floor plans**
Upload a plan and the AI reads the rooms, or draw them yourself.

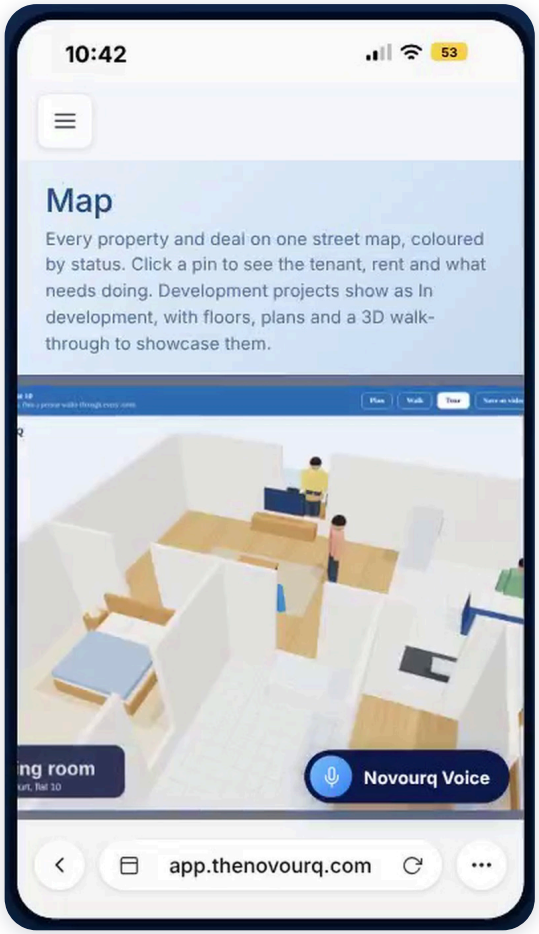

**Textured, furnished rooms**
The 3D model is built from your floor plan, with furniture and people.

**Tour mode**
Starts outside the building, then follows a person walking in.

**Save as video**
Download the tour to share with buyers and investors.

Tour mode starts outside the building

Furnished rooms built from your floor plan

YOU STAY IN CONTROL

# AI that drafts. People who decide.

### Approval queue

Messages, payment reminders and reports wait for approval before anything is sent.

### You choose the skills

Switch Novourq Cloud AI skills on or off by area of the business.

### Clear activity log

See what the AI did, what is waiting and the hours it has saved.

## Available now
